Deputy Minister

How To Use The KWIC Index to Services

1. From the alphabetical list of key words in the yellow pages KEY WORD INDEX, select the key word which most closely relates to the information you require.

2. A ministry code and a white page number are printed to the right of each key word. Turn to the indicated white page and you will find the required information printed immediately under the ministry code.

3. The following example, taken from the 1988 edition, illustrates how you would obtain some information about the Ontario Government role in the inspection of raw milk.

Key Words	Ministry Code	White Page No.
dairy		
products and farms, inspection	AG & FOOD 18	45
products, manufacturers, training	AG & FOOD 35	54
see also milk		
Dairy Inspection Br	AG & FOOD 18	45
milk		
inspection	AG & FOOD 18	45
marketing	AG & FOOD 14	44
see also dairy		

4. In the above example information on milk inspection was obtained by selecting the key word "milk" and turning to page 45 of the white pages section. Note that listed under this key is a *"see also"* cross-reference to the key word "dairy". Key words are cross-referenced when they relate to the same or additional information on a topic.

5. Note that key words beginning with upper case or capital letters indicate actual program names.

THE ONTARIO GOVERNMENT

The three major divisions of parliamentary government in Ontario are the Executive, the Legislative and the Judiciary.

Executive: The Queen, represented by the Lieutenant Governor, is the nominal executive and head of state. The Premier and Ministers of the Crown (Cabinet) form the active executive, formulate government policy and administer its programs.

The basic units of the administrative structure headed by the office of the Premier are 28 Ministries (e.g., Education, Health, Environment), each responsible to a Minister in Cabinet.

Legislative: The legislative function is the responsibility of the Legislative Assembly composed of elected members, including the Premier and other Ministers. The Assembly performs three main functions: legislative - enacts, amends and repeals legislation; financial - authorizes the imposition of taxes and reviews expenditure estimates; critical - discusses and criticizes policies put forward by the Executive.

Judiciary: The judiciary administers justice by adjudicating civil and criminal disputes through the Ontario courts system constituted by provincial statute. Provincial court judges are appointed provincially by the Lieutenant Governor In Council. County, District and Supreme Court of Ontario judges are appointed federally by the Governor General In Council. Courts administration is the responsibility of the Ministry of the Attorney General.

LEGISLATIVE ASSEMBLY LEGISLATIVE 1

The Legislative Assembly, commonly called the House, consists of 130 **Members of Provincial Parliament** (MPPs) elected to represent the people in their constituencies. The Assembly performs legislative, financial and critical functions. It considers proposals for **legislation** or **bills**; enacts, amends and repeals legislation; authorizes the collection of funds from the people of Ontario; and criticizes the policies put forth by the Premier and the Cabinet. As the presiding officer, the Speaker of the Assembly is responsible for both the policy and operations of the Legislature. The Clerk of the Assembly, in the capacity of principal permanent officer, provides the Speaker and MPPs with procedural advice.

Another important feature of the Assembly, designed to enhance the legislative process, is the committee system. Three types of committees, commonly known as Standing Committees, Select Committees and the Committee of the Whole House, review legislation, scrutinize budget estimates, and undertake special studies or investigations.

Standing Committees, composed of Members drawn from each political party, are created and given areas of jurisdiction at the beginning of each session. Meeting while the Legislative Assembly is in session and often during recesses, the committees report from time to time on matters referred to them. Standing Committees are automatically terminated when a session ends.

Select Committees, composed of fewer Members than Standing Committees, are ad hoc groups appointed by the Legislative Assembly to inquire into specific and complex issues. A Select Committee is dissolved once its task is completed.

Committee of the Whole House refers to the Legislative Assembly when it sits to debate certain matters, such as a bill after it has had second reading. The Deputy Speaker or the Chairman of the Committee of the Whole House presides over this sitting.

Information on select and standing committees may be obtained from the Office of the Clerk of the Legislative Assembly, Legislative Building, Queen's Park, Toronto M7A 1A2 (965-1406).

Members of Provincial Parliament and their **constituency offices** are listed below. The list consists of two parts: member/constituency and constituency/member. The member/constituency list includes constituency addresses and local and toll-free telephone numbers for each MPP. Refer to the Government of Ontario Telephone Directory for MPPs' local telephone numbers in Queen's Park, Toronto.

ROYAL COMMISSIONS, SPECIAL PURPOSE BODIES AND OTHERS

ROYAL COMMISSIONS, SPECIAL PURPOSE BODIES AND OTHERS ATT GEN 45
180 Dundas St. W., 22nd Flr.
Toronto, M5G 1Z8
416-598-0411

There are several categories of Ontario Government agencies, boards and commissions.

Royal Commissions are investigatory bodies appointed by Order-in-Council under the **Public Inquiries Act** to inquire into a specific public concern. The Act, administered by the Ministry of the Attorney General, governs the methods and procedures used by a commission, e.g. subpoena powers, hearings. Royal Commissions report to the Cabinet. Over 30 different commissions have been appointed since 1973 to investigate sudden or catastrophic events (e.g. Royal Commission on the Grand River Flood), examine the conduct of public service employees (e.g. Royal Commission Concerning Police Activities), or assist the government in determining policy (e.g. Royal Commission on Health Records).

Agencies, boards, institutes, foundations, tribunals, councils and **Crown corporations** are created under specific Acts administered by the appropriate Ministry. Ministers empowered by an Act or Order-in-Council appoint advisory councils, committees and task forces. The basic functions performed are advisory (e.g. Advisory Council on Senior Citizens), regulatory (e.g. Liquor Licence Board of Ontario) or operational (e.g. GO Transit). These bodies vary in size and activity, and may or may not receive direct funding or access to the Consolidated Revenue Fund. Structures are based on program delivery requirements, such as operational flexibility, particular publicity (e.g. Ontario Lottery Corporation) or removal from undue influence by a Minister or Ministry (e.g. the quasi-judicial Ontario Labour Relations Board). Not all existing special purpose bodies appear

in this book. Those covered are listed under the Ministry through which they report to the Legislature (e.g. Worker's Compensation Board under the Ministry of Labour).

Judicial inquiries involve tribunals, which are usually short-term. They may be appointed under specific Acts to examine special legal circumstances, and pass judgements based on government policy or law.

MINISTRY OF COMMUNITY AND SOCIAL SERVICES

Hepburn Block, 80 Grosvenor St.
Queen's Park, Toronto M7A 1E9

The Ministry of Community and Social Services, established in 1930 as the Department of Public Welfare, was formed as a result of the Ross Commission on Public Welfare. The Old Age Pensions, Mother's Allowance and Children's Aid branches previously administered by the Provincial Secretary, and the Unemployment Relief Branch from the Department of Labour were amalgamated under the new department. In 1967, the name was changed to the Department of Social and Family Services and, in 1972, it became the Ministry of Community and Social Services.

In 1974, the Ministry acquired the Mental Retardation Program under the Developmental Services Act from the Ministry of Health. The children's services programs were transferred from the Ministries of Health, Correctional Services and the Attorney General in 1977. In November 1984, the new Child and Family Services Act was proclaimed. It eliminates inconsistencies, simplifies the law, addresses new legal issues, and ensures that legislation conforms with the equality provisions of the Charter of Rights and Freedoms.

The current trend is to encourage and support community programs enabling physically and developmentally handicapped persons and elderly citizens to live independently. Ministry-operated and funded programs are moving towards small, community residential settings with local support networks.

Administration of Ministry funded and direct-delivery programs across the province is decentralized to 4 regional and 13 area offices.

The Program covers major structural defects up to a maximum of 50,000 for an additional four years. Deposit monies paid to builders are covered up to a maximum of 20,000. The corporation will handle **consumer complaints** from buyers of new homes. However, buyers must inform both the builder and the Warranty Program in writing of any problems occurring before the expiration of the first year, or before the end of the fifth year in the case of major structural defects. The program has regional offices in Brampton, Hamilton, Kitchener, Ottawa, Sudbury and Thunder Bay listed in the white pages of the local telephone directory under Ontario New Home Warranty Program. MINISTRY OF CORRECTIONAL SERVICES

2001 Eglinton Ave. E.
Scarborough M1L 4P1

The Ministry of Correctional Services, established by the provincial legislature in 1946 as the Department of Reform Institutions, operated facilities for male and female adult and juvenile (under 18) offenders. In 1968, it became the Department of Correctional Services when the Province took over responsibility for all county and city jails and passed the Department of Correctional Services Act (consolidating all but the Training Schools Act). In 1972, the name changed to the Ministry of Correctional Services, and probation services were transferred from the Ministry of the Attorney General. Responsibility for juvenile offenders was assumed by the Ministry of Community and Social Services in 1977.

Correctional Services has jurisdiction over adult male and female persons placed on probation, on remand awaiting trial or sentencing, being held for immigration hearings or deportation, awaiting transfer to federal institutions, sentenced to terms of less than two years and released on parole.

Under the Young Offenders Act, Canada, the Ministry holds responsibility for 16 and 17 year-old offenders, up to their 18th birthday.

The Ministry's main objectives are to provide custody and community supervision as directed by the courts and federal and provincial legislation governing correctional services in Ontario; provide information to assist the courts in determining disposition; create programs to motivate offenders towards positive personal and social adjustment; and develop and provide programs for the prevention of crime.

OPERATIONS DIVISION

OPERATIONS DIVISION CORRECTIONS 13
2001 Eglinton Ave. E.
Scarborough M1L 4P1
416-750-3487

The Operations Division has two branches, the Offender Programming and Operational Support Branch and the Community Corrections Branch, which provide management, professional and consultative services to both institutional and community correctional programs. As part of its commitment to community corrections, the Operations Division contracts with private community agencies to provide resource centres for selected **inmates** and open custody for young offenders.

Ministry operations include administration of Ontario's 46 adult correctional institutions, 17 young offender secure detention and secure custody facilities, and a network of probation and parole services for both adult and young offenders in 131 locations throughout the province. **Correctional institutions** include jails, detention centres, correctional centres and treatment centres for adults and young offenders.

Jails and Detention Centres provide short-term, secure custody for persons awaiting trial or sentencing, being held for immigration hearings or deportation, serving relatively short or intermittent sentences, and awaiting transfer to other institutions. Programs are geared to the relatively short-term needs of offenders and focus primarily on basic **educational** upgrading and life skills.

Correctional Centres provide a variety of programs for longer term offenders in minimum, medium or maximum security settings. Specialized programs are available at the **Ontario Correctional Institute** (Brampton), the Guelph Assessment and Treatment Unit (**Guelph Correctional Centre**) and the Rideau Treatment Centre (Rideau Correctional Centre) in Eastern Ontario, in the areas of assessment, treatment and **research**. The

Ministry currently operates two minimum security satellite camps. One provides adult offenders with exposure to farming and forestry, and the other is for young offenders.

Probation and **parole** officers work closely with all courts of criminal jurisdiction in Ontario and with the **Ontario Board of Parole**. Probation and parole staff supply pre-sentence and pre-disposition reports to judges; pre-parole reports to the Ontario Board of Parole; and supervision and assistance to probationers, offenders on parole and former offenders who need assistance after release from correctional institutions. Staff offer **counselling** and guidance in life skills, alcohol and substance abuse, job search techniques, stress management and interpersonal skills.

The Operations Division is administered by five regional offices located throughout the province. A list of regional offices, institutions and probation and parole offices follows.

MINISTRY OF ENERGY

56 Wellesley St. W.
Toronto M7A 2B7

An Advisory Committee on Energy, appointed by Order in Council in August, 1971, recommended the creation of a separate Ministry of Energy to develop a comprehensive and coordinated energy policy for the Province. At that time, energy matters in Ontario involved 9 ministries and 38 major acts. In 1973, a new Ministry was established under the Ministry of Energy Act.

The following groups, each under the direction of an executive coordinator or equivalent, became part of the new Ministry: Energy Technology, Information and Analysis, Legal Services and Conventional Energy. This structure remained until August, 1977, when an Energy Conservation Group was formed. Its functions replaced most of those of the Energy Technology Group, which ceased to exist about a year later. This new group also offered information service to the public. The Information and Analysis Group, which had provided library services and statistical information rather than general public information, was renamed the Strategic Planning and Analysis Group, to avoid confusion and to reflect its changing role.

In October, 1977, the Energy Conservation Group expanded to become the Conservation and Renewable Energy Group. This organization was divided into two groups in 1983.

In February, 1981, the Communications Group was created due to increasing demand for communication services. The staff of the Conservation and Renewable Energy Group's Information Services unit was merged with other communications staff in the Ministry to promote more effective planning and delivery of communication services.

In August, 1988, the organization was re-structured. The Ministry is now organized into the following branches: Policy Development, Liaison and Planning, Programs and Technology, Finance and Administration, Corporate Relations and Legal Services.

The matter is then referred to the Chairmen of the two

boards, who establish a joint board for the hearing. The board's decision can be varied or rescinded only by the Lieutenant-Governor-in-Council.

Under the Intervenor Funding Project Act, 1988, the Environmental Assessment Board holds hearings to determine whether **intervenors in hearings** before the board should receive funding from the proponent of the project for which approval is sought. Criteria for funding eligibility are set out in the Act. This Act also amends other **environmental** legislation to clarify that the Board can award costs under the Environmental **Assessment** Act, and that criteria used to determine cost awards are not limited to those used in the courts.

416-963-1555

The Property Management Division represents the Ministry province-wide through Regional and District offices which provide operational maintenance, repair, alterations and construction services to Ontario Government-owned **buildings**; information on other Ministry services; efficient and effective direction, control and management of the province's lease portfolio; and coordination of new leases on behalf of ministries and agencies.

The **Leasing Services Branch** (965-9295) arranges for the acquisition of leased accommodation through negotiations, and the payment of rental and adjustment claims for **real estate accommodation** leased from the private sector and municipalities. The branch also provides advisory services, reviews and audits, and arranges for payment of tax and operating claims submitted for accommodation (real estate) leased from the private sector. All ministries and most agencies of the Ontario Government are served by the branch.

The **Central Operations Branch** (963-2202) consists of 5 sections. Program Planning and Advisory Services provides managerial and technical program planning and development, policy and procedure development, training, and staff development. The Program Support Section furnishes centralized financial, administrative and operational services (including food services coordination), and parking administration. The Space Management Section provides space analysis, planning and allocation, and space supply/demand monitoring. The Elevating Devices Section supplies equipment assessment, maintenance and elevator design services. Cleaning, **security**, grounds maintenance (**horticultural** service) and common administrative services in consolidated government office buildings within the appropriate geographic area are provided by the staff. They also administer **tendering**, supervision of construction of minor capital projects, and alterations and improvements for both leased and government-owned buildings.

By offering guidance and counselling to other ministries, contractors and service suppliers, regional and district office staff develop a closer communications link with the program specialists at Queen's Park. The district offices oversee day-to-day cafeteria operations, supplier tendering and contract administration for **food** services in provincial court houses and office buildings occupied by government ministries.

Created by the Public Health Act of 1882 as the first permanent health care administrative body in the province, the Ministry of Health was originally known as the Provincial Board of Health of Ontario. PUBLIC HEALTH AGENCIES HEALTH 15

A Public Health Unit is an official health agency established by a group of urban and rural municipalities to provide a more efficient community health program, carried out by full-time, specially qualified people.

There are 43 public health units in Ontario. Programs administered by the units include: public health nursing for home and school visits, immunization, prenatal instructions and public education; public health inspection of restaurants, food stores, summer camps and public swimming pools; nutrition and fitness promotion; preventive dental care and health education; and disease control and prevention of communicable diseases.

Each health unit is governed by a board of health, which is an autonomous corporation under the Health Protection and Promotion Act, 1983, and is administered by the medical officer of health who reports to the local board of health. The board is largely made up of elected representatives from the local municipal councils. The Ministry cost-shares the expenses with the municipalities. The **Assistive Devices Program (ADP)** contributes to the cost of selected and prescribed equipment and supplies for Ontario residents.

Devices covered for individuals of all ages are: prostheses; wheelchairs/mobility aids and specialized seating systems; ostomy supplies; and **respiratory** equipment. ADP contributes up to 75 per cent of the cost of these and, in the case of hearing aids, one out of every four grants goes towards the purchase of a hearing aid for people aged 19 or over.

The program pays up to 75 per cent of the cost of the following devices for Ontario residents aged 24 and under: orthoses; low vision aids (excluding eyeglasses); incontinence supplies; feeding devices and **communication** aids. For people aged 18 or under, ADP contributes 75% of the cost of prescribed hearing aids and FM systems.

Individuals claiming support through ADP must have an ADP Equipment/Supply Authorization Form completed. Generally, applicants must see a **physician** who will verify their need, for equipment and sign the form. When required, these physicians will

refer clients to therapists, nurses and other **health** care professionals registered with the ADP who identify the most appropriate equipment to meet the applicant's need.

The ADP then contributes financially to the purchase of the identified equipment, usually through direct payment to equipment vendors holding contracts with ADP.

HOUSING SUPPLY POLICY BRANCH HOUSING 17
PORTABLE LIVING UNITS FOR SENIORS
777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6514

An innovative approach to **seniors' housing** that originated in Australia, the so-called "granny flat' is a detached housing unit which can be placed in the yard of an existing family home. Intended solely for occupancy by an elderly parent or parents of the owner of the main house and property, the self-contained units are designed to be temporary and portable, so that they can be removed and relocated when no longer required.

To test the applicability of this housing approach, the Ministry has placed 12 of these units through its Portable Living Units for Seniors **(PLUS)** demonstration project. The Regional Municipalities of Ottawa-Carleton and Sudbury and the City of Waterloo each has 4 units, owned and operated by the province. The units are rented to occupants at a rent equivalent to that of the nearest market alternative.

Based on an evaluation of the demonstration project, a decision will be made regarding longer-term implications and opportunities as a private market housing alternative.

HOUSING SUPPLY POLICY BRANCH HOUSING 18
MUNICIPAL BUILDING PROFILE PROGRAM
777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6514

The program is designed to help municipalities develop automated information systems that define the characteristics of their rental housing by age, location and type of projects.

Grants of up to 20,000 are being made to **municipalities** where the population is at least 10,000 or more, and the rental stock makes up at least 25 per cent of the total housing. The one time grant may cover up to 100% of eligible costs including those associated with project staff, consultants and the development of computer software.

Aided by comprehensive profiles of the rental accommodation within their boundaries, municipalities will be able to plan for their future rental housing, and benefit from any available government assistance, such as support for the upgrading of older rental stock.

HOUSING SUPPLY POLICY BRANCH HOUSING 19
HOME SHARING PROGRAM
777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6514

Home sharing is a living arrangement involving two or more unrelated persons who share a family house or apartment. Each has his or her own private space and shares some common areas such as the living room and kitchen.

Through its Home Sharing Program, the Ministry is co-sponsoring the development of municipal services to match together persons who are seeking and providing accommodation. These services go beyond those of a typical housing registry or referral agency. Counselling and follow-up assistance is an integral part of the shared housing approach.

A variety of client groups are served under this program. Seniors, single parents, students, newcomers to Canada, and singles in general have benefitted from the Home Sharing Program.

The Ministry is currently funding a total of 17 home sharing projects located in Metropolitan Toronto, the regions of Hamilton, Niagara, Ottawa-Carleton, Sudbury, Waterloo and York, and the cities of Peterborough, London and North Bay.

Municipalities wishing to establish home sharing services may apply for a **grant** of up to 40,000 per year to cover up to 75% of the total operating budget. The remaining 25% will be funded by the municipality.

777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6520

The Housing Supply Policy Branch is responsible for developing ministry policies on how land use process should affect the development of housing.

On July 20, 1989, the Minister of Housing and the Minister of Municipal Affairs jointly released a "Policy Statement on Land Use Planning for Housing." This Policy Statement, prepared under the authority of the Planning Act, is intended to: ensure that a substantial portion of new housing developed is affordable to households of low and moderate income; encourage municipalities to streamline the planning and building approvals process; increase the supply of land available for housing; increase the range of housing types and sizes; and promote the intensification of established areas for new housing.

Ministry of Housing staff will work with Ministry of Municipal Affairs staff in monitoring and supporting the implementation of the policy statement.

The branch is also responsible for ongoing contributions to land use related issues, legislative proposals and land use initiatives considered by the government.

RESIDENTIAL INTENSIFICATION
777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6520

Residential intensification creates additional **housing** units from established areas, existing buildings, and lands that have been used for other purposes. The Housing Supply Policy Branch developed, in cooperation with the Ministry of Municipal Affairs, a series of programs to support residential intensification throughout Ontario.

These programs include enrichments to the Municipal Housing Statement, Community Planning Grants and PRIDE (Program for Renewal, Improvement, Development and Economic Revitalization) programs. The latter two programs are administered by Municipal Affairs.

The intensification component of the Municipal Housing Statement Program encourages municipalities to undertake housing market analysis and policy development by identifying past and present trends of residential intensification, potential supply and demand, and strategies for increasing supply through intensification. **Grants** are allocated according to the population size of **municipalities**.

The **Local Neighbours Grant Program** increases community awareness and develops local support for residential intensification opportunities through local campaigns, educational programs, workshops, and other promotional ideas. Funding is used to cover administration, consultant time, production of brochures and reports, and does not exceed $50,000.

The **Home Planning Advisory Service** offers grants of up to $30,000 per year to municipalities to establish resource centres. These centres offer advice and information to individuals within the community who wish to create accessory apartments or other forms of small-scale residential intensification.

ONTARIO'S RENT REGISTRY HOUSING 22
415 Yonge St., 19th Flr.
Toronto M5B 2E7
416-963-3624

As part of the **Residential Rent Regulation Act**, 1986, a province-wide Rent Registry has been established to record the maximum **rent** for private rental residential units. This process involves annual up-dating of the rents filed by landlords in accordance with the rent review guideline or as a result of rent review orders.

Landlords were required to register complexes (other than boarding houses) with 7 units or more by May 1, 1987. **Registration** of complexes with 6 units or less will be required at a later date, but may be performed earlier. The rent to be filed is generally the rent charged on July 1, 1985.

The Registry records, in its computer system, the "rent filed by landlord" and any recent rent review orders. The landlord and tenants are notified, and may apply to local Rent Review offices to correct, dispute or certify the legality of the registered rent.

The Registry ensures compliance with registration requirements, investigates registered and current rents, and prosecutes offences. It also provides support to the Rent Review Services Branch in computer systems, public education and staff training.

Information recorded in the Rent Registry is available from the local Rent Review office serving the area where the complex is located. (See listing under Rent Review Services Branch).

Housing Field Operations is responsible for six Regional Housing Programs Offices (RHPO) supporting the administration of 57 **housing authorities** involved in the day-to-day management of public housing. The offices, which are located in Hamilton, London, Ottawa, Toronto, Sudbury and Thunder Bay, also work with non-profit housing corporations, cooperative groups and municipalities in the delivery of housing programs.

The province-wide delivery and administration of various housing programs, including: Ontario Community Housing Assistance Program; Federal/Provincial and Unilateral Non-Profit Housing Programs; Low-Rise Rehabilitation Program (LRRP); Convert-to-Rent Program; Rent Supplement Program; Ontario Home Renewal Program (OHRP); Municipal Housing Statement Program; Ontario Home Renewal Program for Disabled Persons and Federal/Provincial Rural Housing Programs. The RHP offices have authority to approve non-profit groups' program loans and budgets, housing authority budgets, and emergency repairs to Ontario Housing Corporation (OHC) projects. They may also award tenders above financial limits set for housing authorities.

OHC's Housing authorities administer the province's **rent**-geared-to-income **housing** dealing with local issues within the framework of management agreements and general policy directives. OHC units accommodate families, **senior citizens**, **disabled** people, low-income single persons and childless couples. Persons with disabilities must arrange for the provision of support services required to carry out essential daily functions. A priority system is used to rank applications according to the degree of need. The rent is calculated on a scale that is geared to gross household income. Assaulted women applying for permanent subsidized housing are eligible for special consideration.

NON-PROFIT HOUSING PROGRAMS

Fax 416-585-7610

HOMES NOW, a major non-profit **housing** initiative funded solely by the province, is designed to allow community-based sponsoring groups to create reasonably-priced housing. Eligible sponsors are municipal and private non-profit corporations, non-profit housing co-operatives, churches, service clubs and other associations. Grants are available to help in the costs of incorporation, and **grants** and interest-free **loans** assist sponsors in the development of non-profit projects. The Ministry provides loan guarantees to help non-profit housing sponsors obtain funds to acquire land and/or buildings for future housing projects.

Non-profit units are created through construction, purchasing, leasing or rehabilitating existing residential and non-residential properties. About 70 per cent of the units created are allocated to people who cannot afford suitable accommodation. They pay **rents** based on their incomes (about 25 per cent of gross income) rather than on the size or type of units they require.

FEDERAL-PROVINCIAL NON-PROFIT HOUSING PROGRAM is another source of moderate-cost housing for families, **senior citizens**, childless couples, single persons and **persons with disabilities**. **Subsidies** are provided by the federal and provincial governments.

The above programs are administered by this Ministry's Regional Housing Programs Offices (See Housing Field Operations.)

LOW-RISE REHABILITATION PROGRAM
777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6514
Fax 416-585-7610

This program offers **landlords** forgivable **loans** of up to $5,000 per unit to upgrade some 19,000 older, low-rise apartments in Ontario by 1990. These apartments must be located in 25 year old buildings of less than five stories and must have at least two rental units in each building. The only exceptions to the two unit criteria are single apartments over stores and owner-occupied duplexes. Rooming houses and hostel-type accommodations are also eligible for funding.

Administered by municipalities, the program is designed to improve the physical condition of low-rise **rental housing** while retaining its suitability for low and moderate-income tenants. More than 30 per cent of Ontario's rental housing is in low-rise apartment buildings, duplexes and triplexes. At least 3 out of every 5 units are more than 25 years old. Many of these **buildings** now require upgrading of essential services such as plumbing, wiring and heating.

Municipalities wishing to take part in the program must have property maintenance and occupancy standards by-laws. Only essential repairs required to bring buildings up to minimum standards, set out in the by-law, will be eligible. An additional loan of $5,000 per unit is available for modifications to assist disabled persons.

Landlords with buildings of ten or more units may be asked to offer ten per cent of the units to the Rent Supplement Program, under which tenants pay rent based strictly on household income, rather than the size or type of accommodation provided.

A forgivable loan of up to two-thirds of the cost of rehabilitating a unit is available. No repayments will be made for the first five years of the loan. Subsequently, forgiveness will be earned at the rate of ten per cent per year, subject to certain conditions which include retaining the units as rental housing.

For further information, contact the nearest Regional Housing Program Office (see listing under Housing Supply Policy Branch).

ONTARIO HOME RENEWAL PROGRAM
777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6430

Ontario Home Renewal Program (OHRP) helps owner-occupants of residential properties to fix up their **homes** to standards developed locally and agreed to by the ministry. The program is aimed at rehabilitating sub-standard homes, with the emphasis on faulty structural and sanitary conditions, as well as the upgrading of plumbing, insulation, heating and electrical systems.

Loans of up to $7,500 are made to eligible owner-occupants who wish to bring their homes up to standard. A portion of a loan may be forgiven depending on the recipient's income. The current maximum annual qualifying family income, after allowable deductions is $21,000.

Detailed information and application forms are available from local **municipalities** taking part in the Ontario Home Renewal Program (OHRP). In areas that are not situated within existing municipal boundaries, assistance is provided through the Ministry of Northern Development and Mines Field Offices (see Regional and Community Development Branch).

Assistance is provided for the acquisition and rehabilitation of existing family units or the construction of new family units in rural communities with populations of less than 2,500.

Mortgage payments are geared to household income under this **home** purchase program administered by the federal government.

Canada Mortgage and Housing Corporation, the federal agency, provides 75 percent and Ontario Housing Corporation supplies 25 percent of the funds for this program.

For further information, please contact the nearest Canada Mortgage and Housing Corporation Office for details.

RENT SUPPLEMENT PROGRAM
777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6430
Fax 416-585-7610

The Ontario Housing Corporation (OHC) and its local housing authorities work closely with the private sector in making suitable rental accommodation available for households who pay **rents** according to their incomes.

Under the Rent Supplement Program, OHC pays landlords the difference between the tenants' geared-to-income rents and the full rental rate negotiated between OHC (or the local housing authority) and the landlords.

Prospective **tenants** are chosen from the local **housing** priority list for rent-geared-to-income housing. The landlord meets with local housing authority staff to discuss applications from prospective tenants. The applicant is then advised of the availability of the unit by the local housing authority, and leasing arrangements are made between the landlord and the prospective tenant.

The tenant signs a lease with the landlord who is responsible for the normal landlord/tenant relationships, such as rent collection, maintenance, repairs and services normally offered to all tenants in the building.

CONVERT-TO-RENT PROGRAM
777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6430
Fax 416-585-7610

The Convert-to-Rent program is designed to encourage the creation of moderate-cost market rental apartments, primarily through the conversion of non-residential buildings, by offering interest-free loans.

The program has been expanded to include **loan** assistance for the production of hostel-type **accommodation** as well as new rental housing within single-family accommodations. Special additional loans are available for units that are made accessible to **disabled persons**.

Assistance is in the form of 15-year interest-free loans of up to $7,000 per unit. An additional $5,000 per unit is available for units modified for disabled persons

Vacant factories, schools, warehouses and space over retail stores and offices are eligible for conversion into apartments. Construction of new rental housing or a combination of conversion and construction can occur on non-residential sites.

To make better use of existing facilities, space in residential complexes that is not used for shelter, such as garage and storage areas, may be converted. Interest-free loans are also available for building new rental units onto existing housing projects or residential sites. Participants in multi-unit projects are required to offer up to 25 per cent of their units for use by the local housing authority responsible for managing assisted housing in the community.

The Convert-to-Rent program is administered through the Ministry's Regional Housing Programs Offices (see Housing Field Operations).

MUNICIPAL HOUSING STATEMENT PROGRAM

Toronto M5G 2E5

Fax 416-585-7610

The Ministry offers study grants and technical assistance to help municipalities prepare or update their housing statements.

A **Municipal Housing Statement (MHS)** defines a municipality's housing requirements and policy directions. It consists of two major components: a housing market analysis and the basis of a housing strategy. Housing statements also examine issues affecting

maintenance of housing, such as housing renewal, quality of housing, energy efficiency, and potential for intensification of existing building stock.

When endorsed by a municipal council and approved by the Ministry, a housing statement can form the basis of a **municipality's** request for federal and provincial assistance with housing programs.

The Municipal Housing Statement Program is administered by this Ministry's Regional Housing Programs Offices (see Housing Field Operations).

Ministry of Intergovernmental Affairs Act

MINISTRY OF LABOUR

400 University Ave.
Toronto M7A 1T7

In 1882, the Ontario Government established the Bureau of Industry under the Department of Agriculture. In 1900, a Bureau of Labour came into being, and labour affairs were transferred from the Department of Agriculture to Public Works. The Bureau was replaced in 1916 by the Trades and Labour Branch, still under Public Works. In April 1919, Bill 169 brought all labour matters under the new Department of Labour. It was renamed the Ministry of Labour in 1970, when the Department of Labour Act was repealed and replaced by the Ministry of Labour Act.

The Ministry of Labour serves employees and employers by promoting sound industrial relations, safe working conditions and equality of treatment and opportunity in employment. Programs are concerned with the rights and responsibilities of the individual worker; management and labour; and health and safety in the work place. The Ministry is assisted by a range of specialized agencies, boards and commissions, including the Workers' Compensation Board, the Ontario Labour Relations Board, the Advisory Council on Occupational Health and Occupational Safety, the Workers' Compensation Appeals Tribunal, the Public Service Appeal Boards, the Industrial Disease Standards Panel, and the Pay Equity Commission.

Toronto M5G 2C2
416-326-7000
Fax 416-326-7061

The branch is responsible for the administration and enforcement of the **Employment Standards Act, Industrial Standards Act, Employment Agencies Act**, and the Ontario Government Fair Wage Schedules.

The Employment Standards Act provides for minimum terms and conditions of **employment**, called employment standards. It sets out the maximum number of hours which can be worked in the day or week; creates a minimum **wage**; requires overtime **pay** of at least one and one-half times the employee's regular rate; and establishes paid public **holidays**. The Act also requires equal pay for equal work; prohibits discrimination on the basis of sex, age or marital status in employer-provided benefit plans; institutes an entitlement to **pregnancy leave**; forbids lie detector testing; obligates an employer to provide notice of termination or pay in lieu thereof; in certain cases, imposes a separate liability for severance pay; and permits retail store workers to refuse Sunday and holiday work under particular circumstances. For information on employment standards, contact the offices listed below.

Under the Industrial Standards Act, employees and employers may jointly request a schedule of **working conditions** for their particular industry. The schedule must be prepared and accepted by both groups and approved by the Ministry, in order to become the standard for that industry or trade in a designated zone. Any properly defined industry may take advantage of the legislation; it is now being utilized by the garment and fur industries.

The **Fair Wage Schedule** on government contracts ensures that employees working on government projects in the construction, building cleaning and security guard industries receive fair **labour** rates. Contractors are offered a measure of protection from unfair competition based on labour costs when bidding on government contracts. Such contracts contain wage and labour conditions which are applicable to the zone where the work is being carried out, and which must be adhered to by the contractor(s).

The Employment Agencies Act provides for the licencing and regulation of employment agencies in Ontario, with respect to dealings with **job** applicants who use their services to obtain employment. All agencies engaged in "permanent" placement must apply and qualify for a **licence** before undertaking any recruitment activity.
For information on any of the above three programs, call 965-0631 or dial toll-free 1-800-268-9001.

The section's activities involve the construction and maintenance of access **roads** and **bridges** to facilitate management and utilization of the province's natural resources on **Crown lands**. The section is responsible for coordination of the access roads component of various programs, such as the **Canada Ontario Forest Resource Development Agreement** (COFRDA) and **Northern Ontario Resources Transportation Committee** (NORTC). LAND MANAGEMENT BRANCH MNR 18
PUBLIC LANDS SECTION
Whitney Block, Rm. 6603
99 Wellesley St. W.
Queen's Park, Toronto M7A 1W3
416-965-2743

The Public Lands Section administers the **Public Lands Act**, which is the statutory authority for managing and disposing of rights in **Crown** (public) **lands**, and the **Beds of Navigable Waters Act**.

Public land management involves custodianship and protection of the 87 per cent of Ontario that is Crown land, outside of provincial parks. The section controls land uses and users (e.g., use as cottage lots; **shoreline** use such as installation of **docks** and **boathouses**; commercial, residential and **agricultural** use) and protects land from adverse claims, littering and abuse. In **unorganized territories**, the section provides public garbage disposal facilities and controls development on private lands.

Public land disposition is the granting of rights in Crown land to individuals or corporations for purposes such as cottaging, farming, and commercial or industrial uses, e.g., **water** power. These dispositions are based upon market value as determined by **appraisal**. Crown land needs of other ministries and governments are met through transfer of administration and control of the required sites.

A planning process precedes disposition of Crown lands. For example, **lake** planning is done before **cottage** lots are selected and developed. Public land may be granted for short terms (by various types of leasehold) or permanently (by freehold grant).

The **Land Acquisition Program** ensures the orderly purchase of private **lands** required for various Ministry functions. The section assists in setting acquisition priorities, oversees and approves purchases, and maintains a computerized **statistical** control and data bank of all acquisition proposals. Technical real estate-related assistance, analysis and studies are provided to the various branches and levels of the Ministry, as well as related public and private agencies.

The section gives direction to the 8 regions and 47 districts which comprise the Ministry's field organization, and advises the Minister and senior management on land-related matters.

99 Wellesley St. W.
Queen's Park, Toronto M7A 1W3
416-965-3127

The Aggregate Resources Section is responsible for the management of Ontario's **aggregate** resources through the Ministry's regional and district offices. Under the **Pits and Quarries Control Act (P.Q.C.A.)**, over 2,600 pits and quarries are licenced, and over 200 temporary wayside permits are issued each year. The sites, located predominantly in southern Ontario, extract sand, gravel, shale, stone and other non-metallic **minerals** for industrial and construction use. In addition, over 2,000 pits located on Crown land, mainly in northern Ontario, are administered under the **Mining Act**. Aggregate at water's edge or underwater falls under the **Beach Protection Act**. The section administers these Acts, through public and agency review and liaison, for the mutual benefit of all interested parties.

Management of aggregate resources is carried out through resource planning under the Provincial **Mineral Aggregate Resource Policy Statement** (MARPS), policy formulation and development, administration of legislation, rehabilitation studies, and other related research. The section provides interpretation and advice on legislation, policy and rehabilitation to industry, other agencies and the public, as well as support to field staff.

Pits and Quarries Inspectors are designated Ministry personnel assigned to field offices responsible for administering and enforcing the P.Q.C.A. and its regulations. Site inspections are routinely performed from district offices on all licensed and wayside operations.

FIELD ORGANIZATION

FIELD ORGANIZATION

MNR 33

The Ministry of Natural Resources is organized functionally and geographically so that operational decision-making is as close as possible to the program delivery level. For administrative purposes, Ontario is divided into eight regions and 47 districts. The district managers, regional directors and two field Assistant Deputy Ministers serve the public and local area interests by implementing the Ministry's Land Management, Outdoor Recreation and Forest Resources programs (described separately). These programs cover minerals management, fish and wildlife, forest management, public lands and waters, provincial parks, and fuel and industrial minerals management.

The main thrust of program delivery is in the Ministry's district offices, where management and use of natural resources takes place with consideration for local requirements. District managers and staff prepare local program strategies (e.g., land use planning), and integrate individual resource plans that are consistent with the district strategy. Each district manager is responsible to the appropriate regional director for all activities assigned to the district.

Regional offices are organized into functional units headed by specialists responsible for providing advice and support to the districts. In some instances, such as conservation authorities, engineering and administrative services, the regional office is also the delivery point for Ministry programs.

The principal role of the regional director and staff is to direct and coordinate district activities by establishing regional priorities and allocating appropriate resources; setting program standards, and auditing to ensure that standards are met; developing and overseeing implementation of training programs; and providing specialized advice and support services. In addition, the regional director and staff recommend annual work plans to the Assistant Deputy Ministers, and identify areas where policy is required or needs to be modified.

Program management, coordination of policy, and delivery of services across Northern and Southern Ontario are the responsibility of two field Assistant Deputy Ministers. They convey the opinions of field staff to the Deputy Minister through their membership on senior management committees.

For the locations of regional, district and other offices, see the following entries: Field Organization, Northern Ontario, and Field Organization, Southern Ontario.

MINISTRY OF NORTHERN DEVELOPMENT AND MINES

10 Wellesley St. E.
Toronto M4Y 1G2

The Ministry of Northern Development and Mines was established in November, 1985 from the former Ministry of Northern Affairs and the Division of Mines and Minerals (except aggregates), which was transferred from the Ministry of Natural Resources.

The Ministry's primary mandate is two-fold: to meet the special needs of Northern Ontario by encouraging its economic and social development and coordinating other ministries' northern policies and programs; and to promote and regulate the development and use of the province's mineral resources.

The Ministry consists of three divisions: the Corporate Services Division, the Northern Development and Transportation Division and the Mines and Minerals Division.

A network of Northern Development Offices, located in some 30 communities throughout Northern Ontario, provides information and assistance to individuals dealing with provincial government ministries, and works with local people, communities, and other government agencies to identify, develop and initiate a wide variety of local social and economic development projects.

Three regional offices of the Mines and Minerals Division administer a network of 15 Resident Geologist offices, seven Drill Core Libraries, nine Mining Recorder offices and the Temiskaming Testing Laboratory.

Two Agencies report to the Ministry of Northern Development and Mines: the Northern Ontario Heritage Fund Corporation is a $360 million government initiative with a mandate to assist small businesses, single-industry communities, new technology and special projects; the Ontario Northland Transportation Commission is a development agency which operates rail, bus, air and marine service in Northern Ontario.

NORTHERN DEVELOPMENT AND TRANSPORTATION DIVISION

NORTHERN DEVELOPMENT OFFICER PROGRAM NDM 10

The Northern Development Officer (NDO) Program includes a network of 29 "storefront" offices, each staffed by an officer and clerical assistant, located in communities throughout Northern Ontario. The Northern Development Officers, who make regular visits to approximately 40 satellite communities, act as contact points for government and attempt to solve problems for people removed from service points. In many cases, an Officer's task is to function as a coordinator; in others, it is to point the client to the appropriate government contact. Responsibilities include serving as an official agent for other ministries' programs and as the central reference point for federal, provincial and municipal departments, ministries, or agencies.

The Ministry operates an extensive telex network to speed the flow of information, particularly from local offices to regional offices and Toronto, and vice versa. In Toronto, an Inquiry Officer expedites the delivery of information from ministries and agencies.

Northern Development Officers assist unincorporated communities (communities with no municipal government under the Municipal Act), which are unique to Northern Ontario, in establishing **Local Services Boards.** These Boards are legally constituted bodies of members elected to act on behalf of the residents to ensure provision of basic services such as water supply, **fire** protection, sewage disposal, street lighting, garbage collection and recreational programs. Establishment of a Local Services Board is optional, as are the services it may choose to offer. Communities which raise half the budgeted cost are eligible for operational **subsidies** from the Ministry.

The Northern Development Officers administer the **Unincorporated Communities Capital Assistance Program (UCCAP)** to establish basic services in unincorporated communities.

Northern Development Officers are frequently requested to collect data to facilitate the planning process of the Ministry.

The nearest Northern Development Officer can be reached at the offices listed below and from outlying communities through Northern Ontario by dialing the operator and asking for Zenith 33160.

REGIONAL AND COMMUNITY DEVELOPMENT BRANCH NDM 11

Regional and Community Development offices are located in Sault Ste. Marie, Sudbury, Thunder Bay, Timmins and Kenora (addresses listed below). These offices work with northern communities and other ministries in planning development strategies to improve conditions and respond to local and regional needs throughout **Northern Ontario**. Operationally, there are three main areas of interest: Northern **economic** development, Northern **transportation** development and Northern **community** services development.

Regional economic development is stimulated through research, strengthening of industrial activity, promotion of tourism and expansion of agriculture. Funds are also made available to encourage resource development. Scientific studies, experimental hydroelectric and solar heating projects, and alternative or novel energy recovery programs are undertaken.

Community activities include **financial assistance** for construction of water mains and sewage systems, and enhancement of tourism infrastructure. Special assistance is provided for communities undergoing severe economic dislocation or unusually rapid growth. Through the Regional and Community Development offices, the Ministry also implements the **Northern Community Economic Development Program**, offering financial assistance for studies and seminars, publication of promotional materials, and professional staff support for the investigation of new local economic development opportunities. The program provides financial assistance to mid-sized municipalities for the establishment and operation of **Municipal Economic Development Agencies (MEDA)**.

The **Northern Roads Program** establishes priorities and provides capital funding to the Ministry of Transportation for ongoing rehabilitation and selective expansion and improvement of the 9,800 km Northern Highway system. Construction of new roads to facilitate economic development is funded through the **Northern Priority Roads Program**. The **Northern Ontario Resources Transportation Committee** (NORTC) assists the private sector in providing access for resource-based enterprises, and develops Ontario's winter road and trail program to access remote Northern Indian settlements. Capital funding is provided to the Ministry of Natural Resources through the **Resource Access Roads Program** to construct forest access roads. The **Municipal Roads Program** provides funding to municipalities for the construction of local roads. The **Remote Airport Program** sets priorities and offers full funding to the Ministry of Transportation for capital **construction** of airports in communities north of the 51 degree latitude. The **Community Airport Program** furnishes capital funding to assist Northern communities with the development of municipal airports. Northern rail, ferry and air services are provided by the Ministry of Northern Development and Mines through its agent, the Ontario Northland Transportation Commission.

The Ministry contributes funds for a broad range of social and **health** services, such as capital assistance for medical and dental clinics, and **bursaries** for medical and **dental** students, **physiotherapists** and **speech pathologists.** The Regional Offices also participate in the delivery of the **Extended Care Capital Assistance Program (EldCap)**.

Northern Development Councils provide advice to the Government of Ontario through the Ministry of Northern Development and Mines, the Cabinet Committee on Northern Development, and other ministers and ministries, where appropriate, on economic issues of regional concern to Northern Ontario.

The Ministry of Northern Development and Mines takes a keen interest in improving the quality of life and, therefore, promotes the arts and undertakes cultural initiatives as opportunities arise.

The Ministry introduced a **Supplementary Northern Assistance Program** to facilitate the delivery of arts, cultural, health and social activities by non-profit/volunteer groups in Northern Ontario.

POLICY AND PROGRAM DEVELOPMENT BRANCH NDM 12
10 Elm St., 3rd Flr.
Sudbury P3C 5N3
705-675-4360

The branch provides a policy and program development, evaluation and advisory service to the Northern Development and Transportation Division. Other activities include: managing the Division's planning processes; developing and maintaining its information system; and providing in-depth analysis and advice on regional and community economic and social development opportunities, issues and concerns.

MINES AND MINERALS DIVISION

MINERAL DEVELOPMENT AND LANDS BRANCH NDM 13
880 Bay St., 3rd Flr.
Toronto M5S 1Z8
416-965-1559

This branch develops policy, standards, guidelines, and legislation to maintain an optimum level of **mineral** production in Ontario. Market analysis, transportation studies, processing and exploration developments, and national and international trade considerations are part of the broad spectrum of research carried out on **metallic**, non-metallic, industrial and mineable fuel minerals. The **statistics** group conducts an annual census of all mineral operations in Ontario, including development, mining, milling and smelting for economic analysis and for use by the public.

The OMEP office administers the **Ontario Mineral Exploration Program (OMEP) Act**. Mineral exploration activities are encouraged by providing **grants** and/or tax credits equal to 25 per cent of eligible exploration expenses.

MINING LANDS SECTION NDM 14
880 Bay St., 3rd Flr.
Toronto M5S 1Z8
416-965-1380

The Mining Lands Section is responsible for coordinating the Provincial Mining Lands Program, and developing policy and legislation regarding **mineral** rights on **Crown lands**. Through the **Mining Act**, this section ensures that mineral rights are acquired and maintained in an orderly and equitable manner, so that the economic and social benefits of mineral production may continue to accrue to Ontario residents. Initial mineral rights are acquired through **claim staking** or the granting of special **Exploratory Licences of Occupation**. Once specified amounts of exploration or development work have been completed, **leases** are granted; following substantial production, applications for **patents** may be submitted.

Nine Mining Divisions, each administered by a Mining Recorder, coordinate field delivery of the program. The Mining Recorder maintains a register of recorded **mining** claims, assessment work, and information related to mineral rights, and provides a hearings process for disputes regarding mining claims. The Toronto office assesses technical submis-

sions for credit toward maintaining claims in good standing.

The Mining Recorders are located at the Mining Division offices listed under the Field Organization entry.

MINING AND LANDS COMMISSIONER NDM 15
Box 330
700 Bay St., 24th Flr.
Toronto M5G 1Z6
416-965-1824

The Commissioner, appointed by the Lieutenant Governor in Council, is a judicial and administrative officer who presides over a tribunal with jurisdiction similar to that of a trial court. Hearings of appeal are held under the authority of the **Mining Act**, the Conservation Authorities Act, the Lakes and Rivers Improvement Act, the Beach Protection Act, and the Mining Tax Act. Mining-related hearings frequently result from appeals pursuant to mining claim dispute judgements rendered by the Mining Recorders. Other judgements include granting extensions of time for assessment work, granting relief from forfeiture of claims, revoking prospectors' licences, and awarding compensation for surface rights damage. Hearings are held in local courthouses, whenever possible. Further information about appeals and other applications may be obtained from the Mining Recorder Offices, listed under the Field Organization entry, or through the Commissioner's office at the above address.

ONTARIO GEOLOGICAL SURVEY NDM 16
77 Grenville St., 11th Flr.
Toronto M5S 1B3
416-965-0190

The Ontario Geological Survey provides research information on provincial **geology** and **mineral** resources to encourage exploration, provide a basis for **land-use planning**, and aid development of mineral resource policies. Activities include: geological, geophysical, and geochemical **surveys**; mineral deposit studies; geochronology studies; development of new exploration techniques; and presentation of classes and lectures on minerals and **rocks**. The Geoscience Laboratories (965-1337) provide identification, chemical analyses, and assays of mineral, rock and ore samples. The branch administers the Ontario **Geoscience Research Grants Program** (965-1546) to aid applied geoscience **research** at Ontario universities.

Geoscience Information Services provides research facilities for Ministry staff, the **mining** industry, and the general public. The **library** (965-1352) contains publications on geology mining and mineral resources. Its holdings include: reports of the Ontario Geological Survey from 1891, the Geological Survey of Canada from 1845, other provincial geological surveys, the U.S. Geological Survey and some U.S. States; reports and maps for Precambrian regions of the world; selected texts on geochemistry, geophysics, engineering geology, mineral economics and related topics. Special indexes, bibliographies and abstracts enable users to access the collection. The library subscribes to over 400 journals and newspapers, and a large collection of geological and aeromagnetic **maps** covering Ontario. Photocopies are provided at a nominal charge. The Assessment Files depository deposits data, computer-based geoscience, mineral deposits and rock chemical databases. The Geoscience Information Office (965-0190) answers general queries from the public, supplies brochures and pamphlets on the geology and mineral resources of Ontario, and maintains the mailing list of OGS **publications**.

FIELD ORGANIZATION NDM 17

Three Regional Offices ensure that mines and minerals services are readily available throughout the province. A network of field offices includes Mining Recorders, Resident

Geologists, Drill Core Libraries, Mining Development Coordinators and Regional Minerals Specialists.

Field offices provide local consultative services relating to mineral resources to government, industry and the public. Resident Geologist Offices maintain a library and offer information on the geology and mineral deposits of their district. Mining Recorders administer the regulations of the Mining Act and serve those seeking information about the status of mineral lands. There are 16 geological field offices and nine mining recorder offices that report to the Ministry of Northern Development and Mines.

The Guaranteed Annual Income System (GAINS A) assures qualifying Ontario residents, 65 or over, a set annual income. **Senior citizens** who receive the Old Age Security pension (OAS) and Guaranteed Income Supplement (GIS) will automatically receive GAINS if their annual income falls below the guaranteed level.

Ontario Tax Credits consist of the Property Tax Credit, the Sales Tax Credit, the Political Contribution Tax Credit and the **Ontario Home Ownership Savings Plan (OHOSP)** Tax Credit. The first two credits are designed to reduce the burden of property and sales tax for people with low to moderate incomes. (People 65 and over are not eligible for

these credits but can apply for Ontario Tax Grants, described separately). The Ontario Home Ownership Savings Plan Tax Credit provides incentive for individuals and couples to save toward the purchase of a first home. The above three tax credits are fully refundable. The **Political** Contribution Tax Credit may be claimed by people who made a contribution to a registered Ontario political party, a constituency association or a registered candidate in a provincial election. To claim this credit, there must be provincial tax payable after deducting the Property and Sales Tax Credits.

Claims for Ontario Tax Credits are made when filing Personal Income Tax returns.

Ontario Tax Grants allow Ontario residents, 65 or older, who pay **property tax** or **rent** to claim an annual **Property Tax Grant** of up to 600 per household. Applications for this **grant** are mailed each year to all Old Age Security (OAS) recipients and previously qualified applicants. Seniors may also receive an annual **Sales Tax Grant** of 50. Persons turning 65 after mid year who qualify for OAS will automatically receive their Sales Tax Grant and an application for the Property Tax Grant, towards the year-end.

101 Bloor St. W., 13th Flr.
Toronto, M5S 1P7

Fax 416-965-7151

The creation of the Ministry of Skills Development, in March 1985, reflected the Government's urgent need to consolidate skills training, work experience and employment initiatives, and to respond more effectively to labour market adjustment needs.

Thirty-one government training programs were administered by 12 different ministries and agencies, and another 16 youth employment and experience programs were administered by six ministries. Improved coordination of a number of these programs was initiated in 1984 under the umbrella of Ontario Youth Opportunities and the Ontario Skills Fund. The creation of the Ministry of Skills Development extended and consolidated this process.

Upon formation, the Ministry acquired the powers and duties of the Skills Development Division from the Ministry of Colleges and Universities; the Youth Secretariat from the former Secretariat for Social Development; the Office of the Youth Commissioner, Ontario Youth Opportunities and Ontario Skills Fund from the Ministry of Treasury and Economics; the Ontario Manpower Commission from the Ministry of Labour; and the Ontario Youth Employment Program from the former Ministry of Municipal Affairs and Housing.

With the merging of resources, a new framework evolved. The mission of the Ministry is to stimulate changes in the labour market that will contribute to the competitiveness of Ontario businesses, and to help people capitalize on the opportunities that these changes will create.

To fulfill that mission, the Ministry has established six goals: to create a training culture that promotes life-long learning; to work with other groups to eliminate illiteracy; to equip people with appropriate job skills; to encourage federal government labour market adjustment and training support activity which complements that of Ontario; to develop and share labour market expertise; and to contribute to the Ontario Government objective of helping individuals receiving social assistance achieve greater self-reliance and improve their access to employment opportunities.

In our complex society, literacy is the cornerstone on which the development of all other skills depends. To promote literacy, the United Nations has declared 1990 ***International Literacy Year.*** *On behalf of my colleague Sean Conway, Minister of Skills Development, I take pleasure in saluting this special year.*

The cover of the KWIC Index depicts the everyday reading and comprehension we take for granted. Menus, order forms, telephone books, newspapers, and prescriptions all demand a level of literacy. Yet many adults in Ontario lack that essential skill. Without it, people can become isolated from the mainstream of society and unable to reach their full potential.

Much is already being done to improve literacy levels across Ontario. Every day thousands of people are contributing their time, expertise and energy to this worthy cause. It is a task in which all sectors of society – business, labour, community organizations, educational institutions and government – are playing a part. Together, as partners, we are helping to ensure that everyone in this province is able to enjoy the enormous benefits of literacy.

Minister of Government Services
